Fruit and vegetable products of the Pepsico project

939. SHRI ATAL BIHARI VAJPAYEE: Will the Minister of FOOD PROCESSING INDUSTRIES be pleased to state:

(a) whether foreign markets will get priority than the Indian markets for the fruit and vegetable products of the Pepsico project and if so, the reasons therefor;

(b) whether it is a fact that if exports of the Pepsico Products are given priority, the prices of fruits and vegetables in India will shoot up, hitting the common man; and

(c) if so, whether any contractual guarantee has been obtained from Pepsico that exports will not be allowed to affect the prices in Indian markets?

THE MINISTER OF STATE OF THE MINISTRY OF FOOD PROCESSING INDUSTRIES (SHRI JAGDISH TYTLER): (a) While the Punjab Agro, Tata, Pepsico collaborative project envisages that 40 per cent of the total turn over in the field of fruits, vegetables and cereals to be processed would be exported, the project itself will utilise less than 1/5th of the total production of fruits and vegetables grown in Punjab. There will thus be adequate fresh produce left for supply to consumers in the Indian market.

(b) The project envisages cultivation of specific varieties suitable for processing and to increase the productivity of fruits and vegetables. Therefore, the exports envisaged will not in any way affect either the availability of fruits and vegetables in India or make it unaffordable to domestic consumers.

(c) Does not arise.
